

CARE AND MAINTENANCE

GLASSGUARD™ is a true break through in shower glass protection. Much like a “non-stick” coating on a pot or pan, GLASSGUARD™ dramatically reduces the time and effort required to clean shower glass. While shower glass will still need to be cleaned from time to time, GLASSGUARD™ makes the cleaning job easier!

To maintain GLASSGUARD™ treated shower glass simply spray cool water along the top edge of the glass with a shower head or pour water with a cup. Most soapy residue will run right off. Periodic rubbing with a nylon mesh puff will easily remove any buildup that has occurred. If desired, dry glass with a microfiber cloth. Microfiber cloth is preferred to a squeegee as it leaves no streaks; just a clean, spotless shine.

Without periodic cleaning water spots will eventually appear and hard water conditions may build up requiring more frequent cleaning; however, these spots are easily removed with cool water and a nylon mesh puff. Occasional application of GLASSGUARD™ Revitalizer restores the full hydrophobic action to GLASSGUARD™ treated surfaces; plus, has the added benefit of protecting metal, vinyl, and plastic portions of the shower enclosure. Even if the surface has been neglected and significantly stained the glass is still protected! Stubborn build up can be removed using our Ultimate Hardwater Stain Remover, “glass safe” scrubber pad, and GLASSGUARD™ Revitalizer; thus, restoring the glass to its original easy to maintain condition. Follow labels as instructed, keeping in mind a very small amount goes a long way!

CARE KIT

- 1 - microfiber cloth
 - 1 - nylon mesh puff
 - 1 - 4 oz. revitalizer spray
- See label instructions*

RESTORATION & CARE KIT

- 1 - microfiber cloth
 - 1 - nylon mesh puff
 - 1 - 4 oz. revitalizer spray
- See label instructions*
PLUS,
 1 - “glass safe” scrub pad
 1 - reusable pad handle
 1 - 2 oz. Ultimate Hard Water Remover
See label instructions

These GLASSGUARD™ products and simple procedures were designed to help you enjoy many years of easily maintained shower enclosures. For more information or refills contact your local GLASSGUARD™ dealer or call 1-800-842-3205.
